

ABSTRACT

A toroidally shaped LPE with a plurality of microtubes extending through the LPE is disclosed. The LPEs are placed into thermal connection with heat producing components. A heat transfer fluid is contained in the microtubes of the LPEs and removes the heat from the heat producing components. This Abstract is provided to comply with rules requiring an Abstract that allows a searcher or other reader to quickly ascertain subject matter of the technical disclosure. This Abstract is submitted with the understanding that it will not be used to interpret or limit the scope or meaning of the claims. 37 CFR 1.72(b)
